

Elliot is a full-service electrical contractor specializing in substations, lighting, traffic signaling, utility locating, design and build, industrial/commercial services, and communications.

Our roots began over six decades ago in Roanoke, Virginia as a one-crew distribution line contractor. At that time, we made an early decision to approach every assignment with the intention of building a long-term relationship with our customers.

**At the Davis H. Elliot Company, we challenge ourselves to follow three guiding principles:**

**Target Zero** is our vision to be incident-free.

**Human Performance** is the processes we use to prevent errors, to learn from mistakes and to get a little better at the services we provide each day.

**Servant Leadership** is the example we set as we lead and influence one another.

**When we apply these principles to every situation, we create the environment necessary to achieve our mission: To be committed to excellence through continuous improvement in Safety, Quality and Productivity, for the benefit of our customers, employees and suppliers**
